MSc Climate Change and Sustainability candidate at NUS with a background in Environmental Science and Green Management. Experienced in coastal environmental research, water-quality monitoring, R-based data analysis, climate innovation and ESG, with hands-on government and community project experience. Seeking 2027 graduate and internship opportunities across sustainability, environmental consulting, climate strategy and research.

EDUCATION

Master of Science in Climate Change and Sustainability — National University of Singapore (NUS)

Singapore | 2026 – Aug 2027 (Expected)

Bachelor of Science in Environmental Science and Green Management (Hons) — Hong Kong Metropolitan University

Hong Kong | Sep 2022 – Aug 2026 | GPA: 3.18/4.0

ENVIRONMENTAL & RESEARCH EXPERIENCE

Summer Intern — Agriculture, Fisheries and Conservation Department (AFCD)

Hong Kong | May – Aug 2023

- Conducted red-tide monitoring and microbial water-quality assessments supporting ecosystem conservation and coastal resource management.
- Collected and assessed environmental monitoring data through field sampling and marine environmental investigations.

Undergraduate Researcher — Coastal Microbial Water Quality Research

Hong Kong | 2024 – Present

- Designed and conducted laboratory and field experiments investigating beach-sand filtration for reducing microbial contamination in Hong Kong coastal water.
- Quantified microbial reduction using CFU/mL analysis and analysed environmental data using R, statistical modelling and data visualisation.

CLIMATE INNOVATION & IMPACT PROJECTS

Plateco — Founder & Lead Developer | AI Carbon Footprint & Calorie Analysis App

2023 – Present

- Developing an AI-powered application that estimates food calories and carbon footprint through image recognition and environmental data.
- Selected for the Global Climate Innovation Center 2023 Cohort; developed an investor pitch deck and prototype demonstration.

WorkAbility HK — Co-Founder & ESG Lead | Inclusive Freelance Platform

Aug 2022 – Aug 2024

- Co-founded an inclusive platform connecting students with Special Educational Needs (SEN) with employment and project opportunities.
- Partnered with HSBC, Voltra and Hong Kong Rehabilitation Power, enabling 30+ students from Hong Chi Mornhill School to gain STEM internship experience at InnoSpire Technology Limited.

Fabricless — Project Leader | Community-Based Environmental Project

2024

- Designed a waste-reduction initiative combining second-hand clothing exchange and recycled-fabric workshops, engaging 40+ youth participants.
- Expanded the project internationally through a sustainability service trip in Uganda.

ADDITIONAL CLIMATE & SOCIAL IMPACT PROJECTS

Back to Black — Team Member | Food Waste & Climate Advocacy Project

2023

- Led a school-based awareness campaign promoting Black Soldier Fly composting to 500+ students and staff.

Genzeed — Founder | AI Learning Support for SEN Students

May 2025 – Present

- Leading development of an AI-driven learning-support application designed to improve accessibility and academic engagement for SEN students.

SELECTED CLIMATE, ESG & POLICY DEVELOPMENT

HKMU Youth Climate Advocacy Training Programme | 2025 — Climate justice, adaptation, resilience, SDGs and regional climate engagement; participated in Bangkok Climate Action Week 2025 and the 9th Asia-Pacific Climate Change Adaptation Forum.

Climate Leadership Programme — HKMU | Sep – Nov 2024 — 8-week programme on climate science, leadership strategies and sustainability transitions.

AXA Climate School ESG Training Programme | 2024 — Climate adaptation, finance and sustainability management; earned AXA ESG e-Certificate.

EPD Pilot Mentorship Programme — Environmental Protection Department, Hong Kong | 2023 – 2024 — Environmental policy, regulatory compliance and Hong Kong sustainability initiatives.

ESG Leadership Training Programme — Jane Goodall Institute Hong Kong | 2022 – 2023 — ESG frameworks, corporate sustainability and impact assessment.

LEADERSHIP & COMMUNITY ENGAGEMENT

Financial Secretary — First Applied Science Society, HKMU Students' Union

2022 – 2023

- Managed budgets, expenses and financial reporting while coordinating four environmental and science outreach events annually.

Community Volunteer — Hong Kong Youth & Tertiary Students Association and others

Aug 2020 – Present

- Contributed 134.5+ volunteer hours across elderly support, youth programmes, camps and event logistics.

SELECTED AWARDS

Hong Kong Outstanding Tertiary Students Award 2024 | Finalist — Top 30 from 60,000+ tertiary students.

HKEX Foundation Scholarship for Biotechnology and Innovation | 2022 – 2023 — HK\$50,000 award for demonstrated achievement in biotechnology and innovation.

Reaching Out Award | 2023 – 2024 — Government Self-financing Post-secondary Scholarship Scheme.

SKILLS & CERTIFICATIONS

Data & Technical: R, Python (data analysis), Microsoft Excel, environmental data analysis, statistical modelling, data visualisation, laboratory techniques, CFU/mL analysis

Sustainability: ESG analysis, climate impact assessment, climate advocacy, environmental research, coastal water-quality monitoring

Digital: Microsoft Word & PowerPoint, Figma, Canva, Final Cut Pro, UX/UI design

Languages: Cantonese (Native), English (Fluent), Mandarin (Fluent)

Certifications: AXA Climate School ESG Training e-Certificate (2024); Mountain Craft Training Level 1 & 2, HKCMCU (2024)
