

CHOI SZE NGA

MSc Climate Change & Sustainability, NUS | Environmental Science | Research & Climate-Tech

Singapore | +65 8678 0868 | joycechoi915@outlook.com | [LinkedIn](#) | [Portfolio](#)

PROFILE

MSc Climate Change and Sustainability candidate at the National University of Singapore with a background in environmental science, coastal research and climate-tech. Experience spans government environmental monitoring, field and laboratory research, and statistical analysis and data visualisation in R. Seeking 2027 graduate and internship opportunities in sustainability, climate and environmental consulting, decarbonisation, and environmental research.

EDUCATION

National University of Singapore (NUS)

2026 – Aug 2027 (Expected)

Master of Science in Climate Change and Sustainability

Graduate study in climate change, sustainability, adaptation and policy-relevant environmental challenges.

Hong Kong Metropolitan University (HKMU)

Aug 2026

Bachelor of Science in Environmental Science and Green Management

Training in environmental science, environmental management, sustainability and quantitative environmental analysis.

RESEARCH & ENVIRONMENTAL EXPERIENCE

Hong Kong Metropolitan University | *Undergraduate Researcher – Coastal Water Quality & Beach-Sand Filtration*

Hong Kong | 2024 – Present

- Conduct laboratory and field experiments evaluating microbial removal by beach sediments for coastal water-quality applications.
- Quantify microbial concentrations using CFU/mL analysis and compare E. coli removal across natural and artificially nourished beach sediments.
- Analyse experimental datasets in R using statistical modelling and data visualisation to identify relationships between sediment characteristics and microbial removal performance.
- Communicate findings through data visualisations and a research poster on sediment characteristics and E. coli removal potential.

Agriculture, Fisheries and Conservation Department (AFCD), HKSAR Government | *Summer Intern*

Hong Kong | May – Aug 2023

- Supported red-tide monitoring, marine water-quality assessment, field sampling and environmental investigations for Hong Kong's marine environment.
- Collected, organised and assessed monitoring information to support government marine conservation and environmental-management work.

CLIMATE-TECH & ENTREPRENEURSHIP

Plateco | *Founder & Lead Developer*

Hong Kong | 2023 – Present

- Founded an AI-powered climate-tech project that estimates food calories and carbon footprints from food images.
- Combined food image-recognition concepts with nutritional data, emissions databases and carbon factors to translate food choices into accessible sustainability information.
- Led concept development, research and technical implementation; project selected for the Global Climate Innovation Center 2023 Cohort.

LEADERSHIP & SOCIAL IMPACT

Genzeed | *Founder (Part-time)*

Hong Kong | May 2025 – Present

- Co-develop AI-supported learning applications for students with Special Educational Needs (SEN) in Hong Kong, coordinating project development and team activities.
- Prepare funding and project pitches and contribute to strategic planning for scalable social impact.

WorkAbility HK | *Co-Founder & ESG Lead*

Hong Kong | Aug 2022 – Aug 2024

- Contribute sustainability and ESG perspectives to an initiative focused on inclusive opportunities for individuals with Special Educational Needs.
- Support project development, stakeholder engagement and social-impact activities.

CLIMATE LEADERSHIP & COMMUNITY ENGAGEMENT

HKMU Youth Climate Advocacy Training Programme | *Climate Advocacy Participant – First Cohort*

Hong Kong / Bangkok | 2025

- Completed climate-advocacy training focused on climate justice, adaptation, resilience and the UN Sustainable Development Goals (SDGs).
- Selected as an HKMU student representative for Bangkok Climate Action Week 2025 and the 9th Asia-Pacific Climate Change Adaptation Forum.
- Engaged with regional climate practitioners and an NGO examining the intersection of labour rights and climate change.

Hong Kong Youth & Tertiary Students Association | *Community Volunteer*

Hong Kong | Aug 2020 – Present

- Contributed 134.5+ hours to elderly support, youth programmes, community activities and multi-day outdoor events.
- Supported event logistics and operations across community and youth programmes.

SELECTED AWARDS & RECOGNITION

Global Climate Innovation Center – 2023 Cohort: Plateco selected for participation in the climate-innovation cohort.

Reaching Out Award – Hong Kong Government: Received support for an overseas learning and development experience applied toward a service-learning programme in Uganda.

HKMU Youth Climate Advocacy Training Programme – First Cohort: Selected for climate-advocacy training and international climate engagement in Bangkok.

SKILLS

Data & Analysis: R, statistical analysis, statistical modelling, environmental data analysis, data visualisation

Environmental Research: Environmental monitoring, field sampling, laboratory experimentation, CFU analysis, water-quality assessment, literature review

Climate & Sustainability: Climate adaptation, coastal resilience, sustainability research, carbon-footprint assessment, sustainable development

Project & Communication: Climate-tech development, AI-enabled applications, project coordination, research communication, stakeholder engagement

Languages: Cantonese - Native | Mandarin - Fluent | English - Fluent
